How to make your own bunting

Instructions:

1. Print the bunting template. Each A4 sheet creates three bunting triangles, so print as many sheets as you need.
2. Carefully cut out each triangle along the guide lines.
3. Punch two holes at the top of each triangle and thread your string or ribbon through them.
4. Secure each triangle to the string with a staple if needed to keep them in place.
5. Hang up your bunting and enjoy your colourful display.

What you'll need:

- A printer (colour recommended)
- White A4 paper
- A hole punch or stapler
- String or ribbon
